Indiana State Board of Health 1330 W. Michigan, Indianapolis

INDIANA VITAL STATISTICS SUMMARY
1980

Indiana births for 1980 were up slightly to 88,420, but the rate of 16.1 per 1000 population remained constant. The death rate (8.6 per 1000 population) equaled the all-time state low, but the total number (47,300) was up from the previous year. Comparable U.S. rates were 16.2 and 8.9, respectively.

The fertility rate (births per 1000 females 15 through 44) was 69.1, a figure slightly below the national. The total fertility rate (lifetime births per 1000 females at current age specific fertility rates) inched up to 1840 but remained far below the population maintenance rate of 2100.

There were 16,505 abortions reported as performed in the state, a ratio of 186.7 per 1000 live births. This figure is up markedly from 1979 but still lies well below comparable national ratios.

Maternal deaths (5) and the rate (5.7 per 100,000 live births) were up but still remained very low in historical perspective. After remaining level between 1978 and 1979, the infant death rate (11.9 per 1000 live births) continued the drop that began in 1964, setting a new all-time low and remaining below the national figure of 12.5. The total of 1,049 infant deaths for the state also marked a new low record.

While marriages were up nationally, Indiana experienced a decline for the first time in four years. There were 57,853 marriages performed in the state for a rate of 10.5 per 1000 population, which placed Indiana below the national figure (10.9) for the first time in several years.

The state's July 1, 1980, population was estimated at 5,497,600.

Indiana's 10 leading causes of death were:

<u>Cause</u>	<u>Deaths 1980</u>	<u>Deaths 1979</u>
Diseases of the Heart	18,038	17,835
Cancer	10,005	9,512
Cerebrovascular Disease	4,577	4,921
Diseases of the Arteries	1,555	1,518
Motor Vehicle Accidents	1,220	1,353
Accidents (exc. Motor Vehicle)	1,094	1,270
Pneumonia	1,076	916
Diabetes Mellitus	1,040	975
Suicide	583	602
Cirrhosis of the Liver	579	531

Cirrhosis of the Liver replaced Certain Causes of Perinatal Mortality, while Pneumonia and Diabetes Mellitus reversed positions from 1979 with other causes holding their places. Six of the leaders showed an increase from 1979, a contrast to the previous year when only three of the leaders had increased.

RONALD G. BLANKENBAKER, M.D.
STATE HEALTH COMMISSIONER
INDIANA STATE BOARD OF HEALTH

TABLE OF CONTENTS

INDIANA, 1980

<u>Table</u>		<u>Pages</u>
<u>1</u>	RESIDENCE VITAL STATISTICS SUMMARY	<u>1-4</u>

INDIANA, 1980

Table 1. RESIDENCE VITAL STATISTICS SUMMARY

Notes:

*Rates:

Births, Marriages and Total Deaths	- per 1,000 population
Deaths from Specific Causes	- per 100,000 population
Stillbirths and Infant Deaths	- per 1,000 live births
Abortions	- per 1,000 live births
Maternal (Part A)	- per 100,000 live births
Fertility Rate: Births	- per 1,000 females 15-44

Total Fertility Rate: The number of births 1,000 females would have in a lifetime if the fertility experience of 1980 prevailed. Calculated by taking the fertility rate for each five-year age group 15 through 44 (15-19, 20-24, etc.), adding, then multiplying by 5 (since each female would have five years experience in each age group). A total fertility rate of approximately 2100 is necessary to maintain the population on a permanent basis.

**Includes deaths listed in younger age groups

Estimated Population, Indiana, July 1, 1980 5,497,600

A. Births, Deaths, Stillbirths, Marriages and Rates

	Number	Rate*
Births	88,420	16.1

INDIANA, 1980

Table 5. RESIDENCE TOTAL BIRTHS, LIVE BIRTHS, MATERNAL, INFANT, NEONATAL AND PERINATAL DEATHS
AND DEATH RATES FOR EACH HEALTH SERVICE AREA, EACH COUNTY
AND EACH CITY OVER 5,000 IN 1980 CENSUS

NOTES:

Total Births.....Live births plus stillbirths
Maternal Death Rate.....per 100,000 live births
Infant Deaths.....Deaths under one year
Infant Death Rate.....per 1,000 live births
Neonatal Deaths.....Deaths under one month
Neonatal Death Rate.....per 1,000 live births
Perinatal Deaths.....Deaths under one month plus stillbirths
Perinatal Death Rate.....per 1,000 total births
